PRESENTATION

SAMI Développement SA is a company founded at the beginning of 2020: specialized in industrial plant engineering, mainly in the **agri-food sector**, but also with a good presence in the pharmaceutical, cosmetic and chemical sectors, it is the subsidiary of a **group of companies**, Italian and Swiss, operating in different productive activities.

Working in synergy and in team means sharing our **know-how** and our **experiences** to maximize the final result.

All together we represent **160 years of experience**, with the realization of over **820 special plants** all over the world.

PREZENTARE

SAMI Développement SA este o societate creata la inceputul anului 2020: specializata in ingineria instalatiilor, in principal in **sectorul agroalimentar**, dar si cu o buna prezenta in sectoarele farmaceutic, cosmetic si chimic, este filiala unui **grup de companii**, Italiene si Elvetiene, care activeaza in diferite activitati de productie.

A lucra in sinergie si in echipa inseamna impartasirea cunostintelor si experientelor fiecarei societati pentru a maximiza rezultatul final.

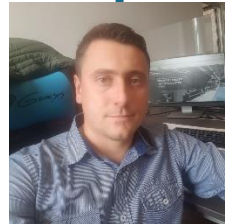

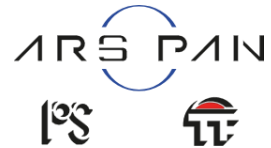

Impreuna reprezentam **160 de ani de experienta acumulata** dobandita odata cu construirea a peste **820 de sisteme speciale** in intreaga lume.

THE STRENGTH OF A TEAM

SYSTEMS AND SOLUTIONS

Wide range of customized, complete and automated machinery and equipment for the **agri-food sector**, in particular in the fields of **bakery** and industrial and semi-industrial **pastry**.

SISTEME SI SOLUTII

O gama larga de utilaje si echipamente personalizate, complete si automatizate pentru sectorul agroalimentar, in special in domeniile de panificatie si patiserie industriala si semi-industriala.

Ars Pan Industriale s.r.l. is a company that deals with the conception and production of **machines** and **plants** for **bakery** and **pastry**, but not only.

Lot of machines are designed and manufactured by Ars Pan Industriale s.r.l., such as:

- Make-up Line for Hydrated and Leavened Dough
- Laminating, Moulding and Coupling Machines
- Multiple Leavening Proofer's Solutions
- Tunnel Oven for Baking and Toasting
- Automatic Loading and Unloading Systems
- Ultrasonic Cutting Machines
- Salt and Seed Dispenser
- Handling Robot
- Cooling Stations
- Automatism for the Completion of an Automatic Line

Among the various types of **products** that can be made thanks to these systems there are, for example, **different types** of bread, focaccia, breadsticks, pizza, hamburgers and hot dogs, biscuits, macarons, panettoni, brezel, tourteau fromagé, quiche lorraine, knackebrot, and much more.

Ars Pan Industriale s.r.l. is constantly committed to offer the **best customized solutions** in order to satisfy the specific needs of each Customer.

Ars Pan Industriale s.r.l. este o societate care se ocupa cu conceptia si productia de **masini** si **fabrici** pentru **panificatie** si **patiserie**, dar nu numai.

Masinile proiectate si fabricate de Ars Pan Industriale s.r.l. sunt multiple:

- Masini cap de linie pentru aluaturi hidratate si dospite
- Masini de laminare, turnare si cuplare
- Solutii multiple pentru cuptoarele de fermentare a produselor
- Cuptoare tunel pentru coacere si fierbere
- Sisteme automate de incarcare si descarcare
- Masini de taiat cu ultrasunete
- Distribuitor de sare si seminte
- Roboti de miscare
- Turnuri de racire
- Automatisme pentru finalizarea unei linii automate

Printre diferitele **tipuri de produse** care pot fi realizate datorita acestor sisteme se numara, de exemplu, **diferite tipuri** de paine, focaccia, grisine, pizza, paine pentru hamburger si hot dog, biscuiti, macarons, panettone, brezel, tourteau fromagé, quiche lorraine, knackebrot, si multe altele.

Ars Pan Industriale s.r.l. se straduieste in mod constant sa gaseasca cele mai bune **solutii personalizate** pentru a satisface nevoile si cerintele specifice fiecarui client.

SYSTEMS AND SOLUTIONS

LAMI SA, in Martigny, Switzerland, is a reference office. The company is active in the fields of **electrical engineering, automation and supervision of industrial processes and data**, operating equipment and **safety**, home **automation** and **renewable energy**.

SISTEME SI SOLUTII

LAMI SA, in Martigny, Elvetia, este un birou de referinta. Societatea este activa in domeniile **ingineriei electrice, automatizarii si supravegherii proceselor si datelor industriale**, a echipamentelor de operare si a **sigurantei**, a **automatizarii cladirilor** si a **energie regenerabile**.

Created in 1987 in **Martigny**, our company today follows the development of several production sites in the field of **agri-food** in Switzerland and around the world.

The construction of a **complete «Revamping»** with an automatic storage warehouse of wine pallets with the recovery of all electrical systems, the automation and IT supervision part allows to **develop in this sector**, as well as in that of **production lines**.

LAMI SA carries out **several mandates** for one of the world leaders in beer, with operations in Switzerland but also abroad.

Already in 1990, LAMI SA **diversified our skills** and began a collaboration in bakery products with the CORNU group in Switzerland. Thus, in 2016 the company LAMI ING EUR SRL was created, to support the **Group** in its development in Europe, with the **construction of buildings in Romania**, and **two production lines**.

Its mandate, in addition to that of **AMO (Assistance to the Owner)**, sees **all the works of the electricity part**, with the putting into operation and the assistance necessary to the production.

Infiintata in 1987 la **Martigny**, LAMI SA urmareste dezvoltarea mai multor linii complete de productie, in special in industria **agroalimentara** din Elvetia si din intreaga lume.

Renovarea **completa a unui depozit (retrofit)** ce contine stocarea automatizata a paletilor cu vin, cu recuperarea tuturor sistemelor electrice, a automatizarilor, precum si supervizarea IT, permit **dezvoltarea in acest domeniu** si in cel a **liniilor de productie**.

LAMI SA sustine **mai multe proiecte** pentru unul dintre liderii mondiali in fabricarea berii, cu operatiuni in Elvetia, dar si in strainatate.

Deja din 1990, LAMI SA si-a diversificat abilitatile si a inceput o colaborare in produsele de panificatie cu grupul CORNU din Elvetia. Astfel, in 2016 a fost creata societatea LAMI ING EUR SRL, pentru a sprijini acest **Grup** in dezvoltarea sa in Europa, cu **constructia de cladiri in Romania** si cu **doua linii de productie**.

Proiectele LAMI SA, pe langa **AMO (Assistance to the Owner)**, vizeaza toate lucrarile pe partea electrica, cu punerea in functiune si asistenta necesara productiei.

Located in Timisoara, LAMI ING EUR SRL operates in the field of **electrical engineering, industrial automation** and **buildings** and benefits from a vast experience in Europe due to the **group** it belongs to.

From 2016 until now, LAMI ING EUR SRL has been dealing with **planning, design, construction, automation, commissioning** and **assistance in the operation of complete production lines**.

Savoir.Faire. Our rationale is the basis of all our activities, enriches them and makes us progress from project studies, specifications, DTAC, PTH, DDE, CS, single-wire and multi-wire power supply and automation schemes, concept and design lighting equipment, design, implementation and commissioning of various industrial equipment, development of hardware-software configurations, PLC programming, SCADA, HMI, as well as building automation through smart-house systems (KNX Internet of IoT).

Energy and Passion of LAMI ING EUR SRL, give a special dimension beyond the motto **"Your projects - our passion!"**. Provides the time, energy and capacity available for the successful completion of each project: **placing success as the fruit of individual passion**.

Situata in Timisoara, LAMI ING EUR SRL activeaza in **domeniul ingineriei electrice, automatizari industriale si cladiri** si beneficiaza de o vasta experienta in Europa datorita **grupului** din care face parte.

Din 2016 pana in prezent, LAMI ING EUR SRL se de **planificarea, proiectarea, constructia, automatizarea, punerea in functiune si asistenta in exploatarea linilor de productie complete**.

Savoir.Faire. Ratiunea noastra de a fi sta la baza tuturor activitatilor noastre, le imbogateste si ne face sa progresam de la studii de proiect, caiete de sarcini, DTAC, PTH, DDE, CS, scheme electrice unifilare si multifilare de alimentare si automatizare, conceptul si proiectarea echipamentelor de iluminat, la proiectarea, realizarea si punerea in functiune a diverselor utilaje industriale, dezvoltarea configurarilor hardware – software, programare PLC, SCADA, HMI, precum si automatizari cladiri prin sisteme smart-house (KNX Internet of IoT).

Energia si Pasiunea LAMI ING EUR SRL, ofera o dimensiune speciala dincolo de motto-ul **„Proiectele tale - pasiunea noastra!”**. Ofera timpul, energia si capacitatea disponibile pentru finalizarea cu succes a fiecarui proiect: **plasand succesul ca rod al pasiunii individuale**.
